

Dear Friends,

I hope you saw Maura's email. **We have just 3 days to meet the biggest deadline of our campaign and are short \$6400.** We need your help immediately.

This grassroots campaign depends on people like you. There is no time to do it later, this is make or break time.

[We need your help right away to reach our goal. Please click here and make your strongest possible contribution today.](#)

If you like our politics the way it is and agree that the candidate with the biggest bank account and the most PAC, K Street and Wall Street money should represent you in Congress, do nothing.

[But if you think that real people should decide elections instead of shadowy elites, then please contribute now.](#)

I have pledged to take contributions only from people because when I go to Congress I will represent the people's interest and will not be beholden to any special interests.

I need your help to fulfill the promise of a government that is actually of, by, and for the people. Without you, real grassroots campaigns do not exist.

With you, everything is possible. **[Please take a moment right now and contribute \\$10, \\$25, \\$50, \\$200, \\$500, \\$1000 or \\$2600.](#)**

Thank you so much for all of your support!

Marisa DeFranco

Congressional Candidate for the 6th District, Massachusetts

P.S. Since our U.S. Congress convened on March 4, 1789, 12,106 people have gone to Congress--only 2.4% have been women. 2.4% in our entire history. Let's do better.
