

**Dear Friends and Supporters!**

Do you truly want to change politics as usual? If yes, then please help us today. Two days ago I wrote to you about our critical deadline that is just 48 hours away. If just 20 of you give \$50 today, we meet our daily goal.

Think about how different our politics would be if everyone stepped up together instead of waiting for someone else to do something about it. I am doing my part by stepping up and running in this race to provide real world common sense solutions to our problems.

**[I need you to do your part and donate \\$50 right now.](#)**

Do you want to:

- (a) Send a woman to Congress from the 6th District for the first time in history?
- (b) Send the first ever Clean Money Candidate to Congress from Massachusetts?
- (c) Increase the percentage of women in the Massachusetts house delegation by 11%?
- (d) Send a businesswoman with real world experience in small business to Congress?
- (e) All of the above?

**[Donate today and on September 9th you will get \(E\) ALL OF THE ABOVE.](#)**

Everyone complains about the disastrous effect big money has on our politics, but no candidate has done anything serious to change that calculation...until now. We are running that campaign of real ideas and solutions that you say you want. Well, we need you to literally put your money where your mouth is and donate today.

**[Please give \\$50 or more today.](#)**

**When we win this campaign with real grassroots clean money, we will send a signal that the status quo of big money drowning out the voice of the people is on its last leg.**

Let's show the pundits and powers that be that we are not going to take it anymore, that we are not going to let big money dictate our politics and our lives and that **WE THE PEOPLE will decide our elections.**

Don't wake up with regrets on September 10. **You have a chance right here and right now to truly make a difference. Your donation will help us win!**

Thank you for all of your continued support!

For democracy,

*Marisa*
