

Hello Friends & Supporters!

I hope you saw Marisa's notes. We have no time left. Every day I see more and more people excited to vote for Marisa, but **she can't do this alone**. [We need you and everyone to pitch in and help TODAY.](#)

This is our biggest deadline of the entire campaign and [we need YOU to help us make a strong showing that grassroots power can beat big money.](#)

If you think it's just grand that the candidate with the richest friends and the biggest bank account should win over the **candidate with the best record of helping people and solving the problems of the people** she represents, take no action now.

But if you truly want real change and someone who will work for the people and not the special interests, [get off the sidelines right now and help make a difference. Please contribute as much as you can right now>>.](#)

Only you can make that difference between victory for the people, rights, justice, and the underdog or the same old status quo of a do-nothing Congress. I work for Marisa because **I know she will truly work for the people and will never bow to the special interests.**

For too long Congress has been a place where ideas, dreams and principles go to die. [Please help us change that and make it what it is supposed to be--a place that protects the people's rights and the people's ability to fulfill their American Dreams. Click here right now to contribute and help us win grassroots-style!](#)

Thank you for all of your support,
Maura
