

Dear Friend,

First -- I hope you are getting through this winter keeping warm as possible. With any luck, we'll be done with this cold spell in the next couple of days.

Today, I wanted to talk about the pervasive influence of PACs.

Indeed, they are affecting how we are living our lives, who is elected to office and how our government is run.

Indeed our opponent accepts funding from over 100 different PACs, ranging from the giant telecoms, to real estate concerns to you name it. Over 100 PACs gave to him. What, exactly, do they hope he does when legislation comes up that will affect their various industries? We know the answer.

At this juncture, it can be argued that PACs are more influential than your vote -- **they are determining who is running *our* district and *our* congress - not the voters who live**

here - our friends and neighbors.

That's why I need your help today. I'm not taking PAC money. I am only answerable to you -- my neighbor, my friend and my fellow citizen.

When I am elected to congress, I will support legislation to outlaw PACs or, if this is not practicable, to severely regulate their operations.

[Won't you consider making a donation today?](#) It would mean a lot to me to have your support

Thank you again for your friendship and support.

Oh, and stay warm as well! I look forward to seeing you soon!

My very best,
