

Dear Friends,

Why is it that the creatures of Congress always put the greed of the huge corporations first and the **interests of small business last**? I recently sat down with the Lowell Sun Editorial Board and talked about my plans help small businesses.

If elected, DeFranco said closing corporate loopholes would be another one of her top priorities. DeFranco also said she would push to end all government subsidies of corporations. *"It is anti-America and anti-capitalist to use the taxpayers' dollars to subsidize the big corporations to put all of the small businesses out of business on main street,"* said DeFranco, who describes herself as a small-business person.

DeFranco said more needs to be done to help small businesses and she was critical of [her opponent's] efforts on the economy and job front. *"I've said very clearly that if you have been there 17 years and employment is mediocre, we are losing jobs on main street, and the economy was destroyed by the so-called masters of the universe on your watch, you are not delivering for the district,"* DeFranco said.

You [can read the full story here.](#)

You know that I am a real democrat who will fight for our small businesses that are the real job creators for y now and for the future of all our children. You know I will stand up for Main Street rather than Wall Street or Street.

[I need your help right now to keep up that fight.](#)

Only you have the power to defeat the stranglehold of big money that is destroying our small businesses.

[If you think it's time to stop the taxpayer giveaways to the titans of Wall and K Street and save Main Street please contribute \\$25, \\$50, \\$200, \\$500 or more right now.](#)

With you, everything is possible.

My very best,

Marisa
