

Hello Everyone!

My message is and has been that I am in this race for one reason, and one reason only—to make people’s lives better...something I have been doing, on the ground and in the real world for the last 16+ years. I connect with people from all walks of life because I work with them on a daily basis, solving their problems.

[I need your help NOW, to continue building on our momentum. Please contribute \\$25, \\$50, \\$100 or more today.](#)

Let’s talk message. I have one. On Issue #1, Jobs—I have a specific jobs plan; my primary opponent does not. On Immigration, my primary opponent wants to study, while I am ready to take action. I don’t need further study: I am an expert in this area with real solutions and specific answers. **And I have the political courage to take a stand.**

On Small Business, **I have direct, deep and broad experience because I am a small business, and I have represented small businesses from across the Commonwealth** and across all industries, from biotech, to construction, to nurses, doctors, and dentists, to the restaurant and service industries, and many, many more.

To those supporters who have contributed along the way, *thank you.* You have brought us this far.

The current strategy of my opponent—money over message—is not working. I am the one in this Democratic primary who has been fighting for people her entire life. On a daily basis, I fight the Federal government, and WIN, against long odds. **Let me bring that advocacy and passion, independence and know-how to the United States Senate for you, the people of the Commonwealth.**

If you seriously want a candidate who can beat Scott Brown in the fall, then the good news is that you have someone right here and ready to go, and it is me. **I am the one who can beat Scott Brown with message and ideas and real-world experience.** While Brown and my primary opponent fight each other as to who is the underdog (laughable as it is), **I am the real underdog here, and you can help our real grassroots campaign build on our momentum** and pull a “Scott Brown” on Scott Brown—that is, **we can come from behind and prove all the pundits wrong.**

We can prove that it is actually possible to win a Senate campaign with real ideas, solutions, and people power.
