

Dear Friends,

We have officially gone National...as well as Regional! Last week, I was interviewed on Greta Van Susteren. **Making national news is a BIG coup** for any primary campaign because the power of incumbency silences dissent from within the party.

But making it to national TV for a grassroots campaign like ours? Simply unheard of--until now! As I promised you, we do things Smarter, Faster, Better around here. [See my interview with Greta here>>](#)

We received this media attention not by buying it with big money but the old-fashioned way...we earned it with our plain talk and common sense ideas and our willingness to call our party out when they engage in anti-woman tactics, stifle democracy and fail to bring real-world solutions to the American people .

[Join me in fighting for common sense and actual solutions in Congress- -make a contribution right now so I can continue to speak truth to power and win this fight for hardworking people against a do-nothing Congress.](#)

Our good news doesn't stop there! One of the biggest newspaper in our district *The Lowell Sun* put us in their Sunday Editorial (that is HUGE!)

"DeFranco is a plain-talking candidate who says she won't be pigeon-holed into ideological stances just for the party's sake....It's easy to see why Democrats would want DeFranco to stay out of sight and out of mind. She represents a free-thinker. [Marisa] is an intelligent woman who represents a legitimate threat to the party establishment and John Tierney."

[We need to keep this hot momentum going, and I need your help immediately because my opponent will have all of the big money on his side. Please give \\$25, \\$50, \\$100, \\$200 or \\$500 today.](#)

To Victory!
