

Hello Friends & Supporters!

Happy Halloween! I hope you've had a chance to read about Marisa's "skeletons".

As you can see, they are not scary at all, but what is scary is how we run politics and elections in this country. Rather than being judged on Marisa's ideas, hard work ethic, and content of her character, our campaign will be judged by the pundits, politicians and media by the money in our campaign account.

It is wrong. [Help us level the playing field and contribute \\$25, \\$50, \\$100, \\$500 or more today.](#)

The next 48 hours are critical for our grassroots campaign. We must meet our October goal and time is ticking fast in this campaign.

[We need to send a strong message that big money does not dictate our democracy. Please give to Marisa now.](#)

Early resources are critical for our grassroots campaign--without your help, we will not survive the big money onslaught.

[\\$25 buys us 70 palm cards that our volunteers distribute to voters](#)

[\\$50 buys 30 bumper stickers to disperse to supporters](#)

[\\$100 buys 30 signs to divvy out to supporters](#)

We need Marisa to fight for us, but she needs urgent resources. We need you to do something. [Can you stand up and help us reach our goal before our October budget deadline? Please click here to give \\$25, \\$50, \\$100 or more today.](#)

Stand strong with Marisa against the disgrace of big money drowning our democracy and drowning the strong and independent voices fighting for you. Marisa has always fought for people's rights and for justice....help her fight for you by contributing to our campaign before our budget deadline.

The next 48 hours are critical for our grassroots campaign. We must make sure we have the resources to fight for you. Please contribute now.

Thank you for your support!

Subject: skeletons

Skeletons.

Every politician and candidate has them, and it is time for me to come clean with mine. Here it goes....

Skeleton #1: I graduated Magna Cum Laude from college.

Skeleton #2: I graduated Cum Laude from law school.

Skeleton #3: I won a National Award for my pro bono legal services, the only sole proprietor woman in the country to receive the award.

Skeleton #4: I was named a Top Woman of Law in Massachusetts in 2011.

Skeleton #5: I am self-made. I built a successful law practice from nothing--no connections, no big checks from Mom, Dad, or family.

Skeleton #6: I fight against the Federal government and win when people's lives and businesses and jobs are on the line.

Skeleton #7: I was a varsity cheerleader in High School.

You get the picture. I have a track record of success and delivering results in the fights that I take on--send me to Congress to fight and win for you.

[Click here to contribute \\$50, \\$100, \\$500 or more, and join me in standing up and winning for hardworking people.](#)

It is time for politics to actually bring real solutions to the people. Sending the same career politicians back to DC year after year will change nothing. Politicians seem to have forgotten that their job is to improve the lives of hardworking people.

[Can you contribute \\$50 or more so we can fight back against this do-nothing Congress?](#)

Have you had a raise lately? Congress has. Have you ever failed to show up for your job 3 weeks in a row and kept your job? Congress has. Can you do nothing at your job and remain employed? Congress can. **Let's tell them Congress can't.**

[Click here to contribute \\$25, \\$50, \\$100, \\$500 or more, and send me to fight for you and deliver results for hardworking people.](#)

Are you happy paying taxes to watch Congress do nothing to help us hardworking people out here? I'm not, and that is why I am in this race.

It is up to us. I know that if we elect people who know how to get things done, we will find real world solutions and succeed. Please join me today.

[Please rush us a secure contribution right now to make sure I have the resources I need to stand up...and fight...and win for you.](#)

Thank you for your support,

Marisa

P.S. I threw in the cheerleading one for fun-some people may think it is a skeleton...but either way, we were County champions. I delivered my best for my team, and I will do the same for you.
