

Dear Friends,

**It is now or never.** This is not a dress rehearsal. This is our final chance to make a strong showing for this final deadline. I'm asking--please help us.

We've done the signatures, we've put out our platform. I've literally gone On The Record nationally and locally with the media, we've traveled across the district talking to voters, from small businesses on Main Street, to LGBT and women's rights forums, to Rotary and Senior Centers.

**People love our clean money politics and our positive ideas, and they love that I think for myself and can't be pigeon-holed. And now we need your help to get our message out to more voters.**

From the beginning, I've shared with you that we don't need to match our opponents dollar for dollar, **but I do need clean money to win this thing! I. Need. You.**

[Please click right here, right now to truly make a difference. Your donation will help us win!](#)

Everyone complains about the disastrous effect of big money on our politics, but no one does anything about it...well, we are and YOU are!

[Speak by donating now or forever hold your peace about the terrible state of our politics.](#)

**Are the people stronger than big money? Only you can show that you are.**

When we win this campaign with real grassroots clean money, we will send a signal that the status quo of big money drowning out the voice of the people is on its last leg.

[Don't wake up with regrets on September 10. Please rush your donation of \\$25, \\$50, \\$100, \\$300, \\$500, or \\$1000 to us by clicking here now.](#)

Thank You.

**For democracy,**

Marisa DeFranco
